ELEMENTARY CAMPUS TECHNOLOGY SPECIALIST SCHEDULE

From the perspective of:

Peggy Reimers, Director of Professional Development for TCEA

TCEA Staff Member

So many great sessions - so little time. Tech specialists are busy and balancing many objectives, but the main objective is to support staff in doing their best work to benefit students. Building skills in technology integration strategies, community building, coaching, and staying ahead of the curve when it comes to technology tools is essential.

This mock schedule is rich with sessions featuring a number of technology tools, increasing student engagement and amplifying student voice, best practices in coaching and professional development, resources and ideas for inclusivity and special populations, and more. Any coach would win with this experience!
