Stars at Night Ballroom B2/B3

From the Author, Avis Canty-Duck

Avis Canty-Duck is an educator at heart and has been teaching in the Greenville County School District for 22 years. She began her career as a special education teacher where she taught students with Educable, Emotional and Learning Disabilities in the self-contained setting. Due to the nature of the classes Avis was given the opportunity to teach, she constantly looked for ways to make learning interactive, authentic and meaningful for her students. Technology was the perfect tool and soon, her students were excited about learning and even started seeking information on their own outside the four walls of their classroom. Avis continued to use technology to enhance and expand learning for her students which led her to obtain a Master's Degree in Curriculum and Instruction with a concentration in eLearning and Technology Education from Concordia University. Now she serves her district as an Instructional Technology Facilitator. Her greatest joy is being able to assist other teachers with accessing the curriculum to teach state standards, technology integration as well as coaching them to be more effective, well-rounded and confident teachers.

The focus on completing this schedule was for the educator that wears many hats. The schedule would be a good fit for any content area or related arts teacher that would also like to have ideas on integrating technology into their curriculum.
