Stars at Night Ballroom B2/B3

From the Author, Luann Hughes

I am a district leader and a former high school English teacher who has a passion for identifying ways to engage learners and promote student ownership of learning. I value learning opportunities that leverage personalized learning and purposeful integration of interactive and engaging reading and writing skills across all content areas.

These session selections highlight opportunities for participants to engage in a wide range of learning experiences and include content that targets all grade levels with a special focus on building and extending foundational reading skills and leveraging technology to amplify student voice and encourage critical and creative thinking. Many of these sessions allow participants to network with like-minded colleagues through discussions, poster sessions, panels, and hands-on, collaborative learning.
