

## CTE SCHEDULE

**From the perspective of**  
*IDEAcon Committee Member*

I am a Technology Director who before this role was a CTE teacher in the area of Computer Science. If I was still in this role these sessions would be ones I would want to check out to bring back to my students who were lined up for career and technical colleges verses a traditional four year college. These sessions are geared for those who teach in a CTE/TA/CATE program. These sessions will highlight topics that can be brought back to help your students in these career driven classes.
