

ELEMENTARY SCHEDULE

From the perspective of
Lauren Wysocke

IDEAcon Committee Member

I am a K-4 Technology Teacher who is passionate about encouraging teachers to best integrate technology tools into their classroom in meaningful ways, so I am interested in sessions that will meet the diverse needs of teachers and learners. I also love infusing STEM, coding, and robotics into the curriculum, so I'm excited about some of those sessions to learn something new to take back to my students in our Makerspace!

As a former first grade teacher, I chose these sessions through the lens of what would be most meaningful in an in-person, hybrid, or remote environment to reach all learners. I know that even our youngest learners can do anything if you give them the tools to do so! I am also excited to learn from keynote speakers like Kasey Bell, Ken Shelton, Monica Burns and Desiree Alexander and look forward to their inspiring sessions!

Pre-Event

#211039

School Branding and Storytelling: Consistency and Creativity

On-Demand Presentation
Pre-Event

#210718

Awesome Uses for Google Drawings in Your Classroom

On-Demand Presentation
Pre-Event
